Portfolio: JLcyberfortress

Professional Summary

Cybersecurity professional with a strong foundation in network security, incident response, and vulnerability assessment. Certified through the Google Cybersecurity Professional Certificate program, with hands-on experience in tools like Wireshark, Nessus, and Splunk. Skilled in scripting automation with Python and adept at implementing frameworks like NIST RMF and SP 800-53 to mitigate risks and secure critical systems. Excited to bring analytical skills, integrity, and creativity to a Security Operations Center (SOC) or other cybersecurity environment.

Certifications

- **Google Cybersecurity Professional Certificate** (October 2024)
- **CompTIA Security+** (In Progress)
- **IBM Cybersecurity Analyst Professional Certificate** (In Progress)
- **Ethical Hacking Series**
- **IT Security Foundations**
- **Learning Cryptography and Network Security**
- **Linux Security and Hardening Essential Training**
- **Troubleshooting Your Network with Wireshark**

Skills

- **Cybersecurity Tools:** Wireshark, Nessus, Splunk, tcpdump, Kali Linux.
- **Programming and Scripting:** Python (Beginner), Bash.
- **Frameworks and Standards:** NIST SP 800-53, NIST RMF.
- **Soft Skills:** Incident analysis, process optimization, documentation, mentoring.

Projects

- **Network Security Audit**
- **Phishing Incident Response Playbook**
- **Vulnerability Assessment**
- **Algorithm for Access Control Automation**

Professional Experience

- **Medical Assistant**
  - *Evergreen Health Care | September 2019 – Present*
- **Security Guard**
  - *Star Protection Agency, LLC* | May 2015 – April 2016
- **Assistant Manager**
  - *Managed Labour & Recruitment Solutions* | April 2016 – September 2016
- **Student Ambassador/Volunteer Manager**
  - *Seattle Central College* | April 2012 – September 2015

Education

- **Pima Medical Institute-Seattle** | Certificate in Medical Assisting (2018–2019).
- **Cleveland High School STEM** | High School Diploma (2009–2011).
